**COMPATIBLE WITH CURRENT HAUCK SAFETY
GATES**

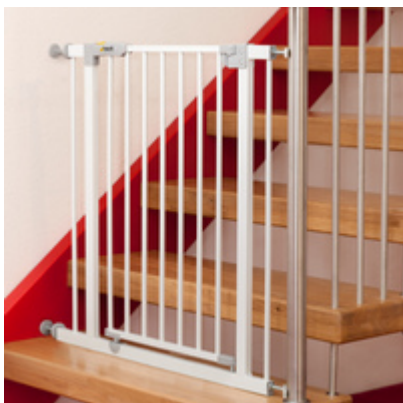

SIMPLY WELL ATTACHED

Does your stair rail have round bars? Easily attach your hauck safety gate to your stairs with y-spindle adapters. Also for oval bars, up to 10 cm in diameter.

NO DRILLING REQUIRED

Don't want to drill any holes into the wall? Y-spindles are perfect for you! They can easily be fitted onto the stair gate instead of the adjusting screws. No need for a drill.

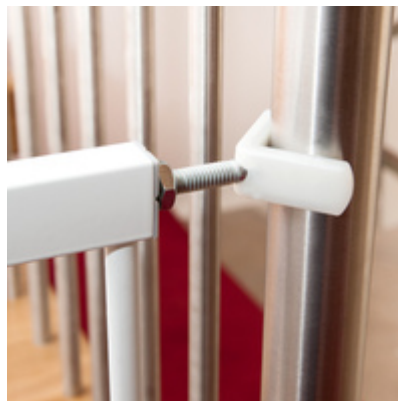

COMPATIBLE WITH CURRENT HAUCK SAFETY GATES

Fits your stair safety gate: the y-spindle adapters are compatible with current hauck safety gates, such as the Clear Step Autoclose 2, Clear Step 2 and Open N Stop 2.

EASY ASSEMBLY AND REMOVAL WITHOUT A TRACE

With y-spindles, your stair gate stays in place with pressure alone. Simply clamp the safety gate into place. And take it out again just as easily. No marks are left behind.

ALSO FOR WIDE STAIRCASES

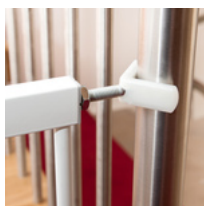

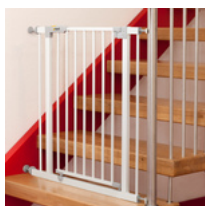

Is the 11 cm thread of the Y-Spindle adapter not enough for securing your stair gate? Then simply make the gate wider using hauck's extensions. Either 9 cm or 21 cm wider.

Y-adapters for hauck stair gates

Simply well-attached

Does your bannister have round spindles? With Y-spindle adapters, attach your hauck safety gate easily to your bannister. And also to oval spindles, up to 10 cm in diameter.

Without any drilling

Reluctant to drill holes? Y-adapters are perfect for you! They can easily be fitted onto the stair gate instead of the adjusting screws. No need for a drill.

Compatible with current hauck safety gates

Y-spindle adapters are compatible with current hauck child safety gates, such as the Clear Step Autoclose 2, Clear Step 2 and the Open N Stop 2.

Easy assembly and traceless removal

With Y-spindles, pressure alone holds the stair gate in place. Simply clamp the safety gate into place. Take it out again just as easily. No marks left behind.

Even suitable for wide staircases

Is the Y-spindle adapter 11 cm thread length not enough to attach your stair gate? Then simply make the gate wider using hauck extensions. Either 9 cm or 21 cm wider.
