Hauck Autoclose N Stop - The safety gate with automatic closing

This metal safety gate is particularly useful as it closes automatically from both sides thanks to its magnetic lock. The gate for doors and stairs can be used for openings between 75 - 80 cm. If you wish to childproof a larger opening, you can buy the separately available 9 cm and 21 cm extension, as well as the Y-Spindle for round stair railings. One extension + Y spindle can be used on each side of the gate, making a maximum of two extensions possible.

The gate's assembly is very easy. It is fixated in between doors or stairs with four fixing screws that work with pressure. They simply need to be twisted until the closing mechanism engages. By using this installation system, no drilling is necessary and annoying holes in your wall are avoided.

The gate's door can be opened by adults with one hand only leaving the other one free for your child. When letting go of the door, this bounces back and closes automatically. For safety, the green/red indicators on the lock show whether the door has closed correctly. Thanks to its double closure mechanism with pulling and lifting, babies and toddlers cannot open the door.

By using the separately available extensions of 9 cm and/or 21 cm, you can use the Autoclose N Stop 2 for openings up to 122. The following measurements and combinations are possible:

75 - 80 cm = gate only
84 - 89 cm = gate + 9 cm extension
93 - 98 cm = gate + 2x 9 cm extension
96 - 101 cm = gate + 21 cm extension
105 - 110 cm = gate + 9 cm extension + 21 cm extension
117 - 122 cm = gate + 2x21 cm extension

Please note:

This product is a self-adjusting safety gate i.e. tilting of the side part is corrected by tightening the fixing screws in the frame, thus enabling a secure position and parallel fixing of the side parts in the area of the closing mechanism.

AUTOCLOSE N STOP

THE SAFETY GATE WITH AUTOMATIC CLOSING

Product net weight 3,76 kg

Protection Area

Possible protection area 75 - 80 cm (gate without extensions)

Extension possibilities
9 cm Extension
21 cm Extension
Y-Spindle

Optional protection area
84 - 89 cm (Gate + 9 cm Extension)
93 - 98 cm (Gate + 9 cm + 9 cm Extension)
96 - 101 cm (Gate + 21 cm Extension)
105 - 110 cm (Gate + 9 cm + 21 cm Extension)
117 - 122 cm (Gate + 21 cm + 21 cm Extension)

Safety Gate height 77 cm

Special features
Easy to assemble without drilling
Self-closing
Safety Indicator
Extendable

Age information 0 - 24 months

Dimensions

Built up 1,5/4 x 75-80 x 77 cm
