Manually locking door & stair safety gate set with 21cm extension

As soon as your child is mobile, safety gates on stairs and in doorways are essential to help keep your baby safe.

Whether at home, at the grandparents, or on holiday, the clamping gate is safely attached with adjusting screws by means of pressure fit and can be removed without leaving any residues. The safety gate can be opened with one hand to both sides and is easy to close.

The Open N Stop KD, including 21 cm extension, is not only suitable for passageways with a width of 96–101 cm but can also be extended to up to 122 cm using the separately available 9-cm or 21-cm extensions. The safety gate can also be mounted on stairs with round stringers using separate hauck Y-spindles.

The following dimensions are possible with separate extensions:

75–80 cm = gate without extension
84–89 cm = gate + 9 cm extension
93–98 cm = gate + 9 cm + 9 cm extensions
96–101 cm = gate + 21 cm extension
105–110 cm = gate + 9 cm + 21 cm extensions
117–122 cm = gate + 21 cm + 21 cm extensions

Note: This safety gate is self-adjusting. This means that the initial skewed position/gap in the area of the locking mechanism is eliminated by tightening the four fixing screws.
