/

**INDIVIDUAL USE AND EXPANDABLE WITH
ACCESSORIES**

/

**MOUNTED SAFELY, SECURELY AND QUICKLY
WITHOUT DRILLING**

SELF-CLOSING
FROM BOTH SIDES

EASY OPENING AND CLOSING

The safety gate can be easily opened with one hand on both sides and safely locks in place when closed.

PRESSURE FIT GATE FOR STANDARD DOORS AND STAIRS

The barrier-free metal safety gate is suitable for stairs or doors with a width of 75 to 80 cm. Thanks to the adjusting screws, you can clamp it in place quickly and stably.

INDIVIDUALLY
EXTENDABLE

EXPANDABLE WITH SEPARATE EXTENSIONS

With the separately available 9-cm and 21-cm extensions, you can extend the safety gate to 122 cm and use it for numerous staircases and doors that do not have standard dimensions.

SEPARATE Y-SPINDLES FOR STAIRS WITH ROUND STRINGERS

The safety gate can also be mounted on banisters with round stringers without drilling using the hauck Y-spindles.

SEPARATE Y ADAPTER AVAILABLE AS ACCESSORY

EASY INSTALLATION WITH ADJUSTING SCREWS

CLAMPING GATE WITH PRESSURE FASTENING

Whether at home, at the grandparents, or on holiday – thanks to the pressure fastening with adjusting screws, the child gate can be easily removed and mounted in just a few simple steps.

SELF-ADJUSTING GATE

The initial skewed position/gap in the area of the locking mechanism is eliminated by tightening the four fixing screws. This makes secure, stable fastening possible.

Practical, manually locking safety gate for doors & stairs

As soon as your child is mobile, safety gates on stairs and in doorways are essential and help keep your baby safe.

Whether at home, at the grandparents, or on holiday, the clamping gate is robustly attached with adjusting screws by means of pressure fit and can be removed without leaving any residues. The safety gate can be opened with one hand to both sides and is easy to close.

The Open N Stop 2 is not only suitable for passageways with a standard width of 75–80 cm, but can also be extended to up to 122 cm using the separately available extensions of 9 cm and 21 cm. The safety gate can also be mounted on banisters with round stringers using separate hauck Y-spindles.

The following dimensions are possible with separate extensions:

- 84–89 cm = child safety gate + 9 cm extension
- 93–98 cm = child safety gate + 9 cm + 9 cm extensions
- 96–101 cm = child safety gate + 21 cm extension
- 105–110 cm = child safety gate + 9 cm + 21 cm extensions
- 117–122 cm = child safety gate + 21 cm + 21 cm extensions

Note: This safety gate is self-adjusting. This means that the initial skewed position/gap in the area of the locking mechanism is eliminated by tightening the four fixing screws.
