9 CM EXTENSION FOR HAUCK DOOR AND STAIR GATES

9 CM EXTENSION FOR HAUCK SAFETY GATES

EXTENSION COMPATIBLE WITH SAFETY GATES BY HAUCK

You want to extend your hauck safety gate? Then use the 9 cm extension, also by hauck, which is compatible with all standard hauck door and stair gates, e.g. Clear Step Autoclose 2.

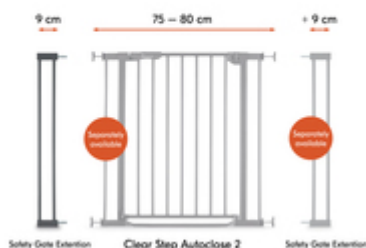

ALSO AVAILABLE AS 21 CM EXTENSION

Do you need a larger extension? Then simply use the 21 cm extension for door and stair gates from hauck.

ALSO AVAILABLE AS 21 CM EXTENSION

TWO EXTENSIONS PER GATE POSSIBLE

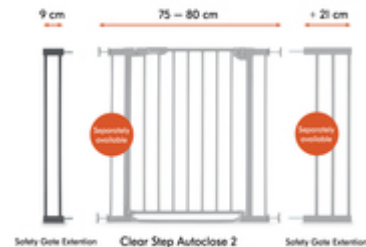

TWO EXTENSIONS PER GATE POSSIBLE

An extension of 1 x 9 cm is not enough for your width? You can combine your hauck children's gate with a total of two extensions, one on each side.

9 CM EXTENSION AND 21 CM EXTENSION COMBINABLE

A 2 x 9 cm extension is too short? Then simply combine the 9 cm extension with a 21 cm extension.

9 cm Extension for hauck Safety Gates

Would you like to extend your hauck safety gate? With this 9 cm extension, you can easily adapt your safety gate to wider doorways or staircases. The extension is compatible with all hauck door and stair safety gates. If you need a longer extension, there is also a 21 cm version available separately.

Flexible combinations for different widths

With hauck extensions, you can flexibly adjust your safety gate with a base width of 75-80 cm. Each side of the gate can be fitted with a maximum of one extension – either 9 cm or 21 cm. Here are some examples of possible combinations:

- **Width 84-89 cm:** 1x 9 cm extension
- **Width 96-101 cm:** 1x 21 cm extension
- **Width 105-110 cm:** 1x 9 cm + 1x 21 cm extension
- **Width 117-122 cm:** 2x 21 cm extensions

Additionally, with the separately available hauck Y-spindles, you can attach the extension and safety gate to stair railings with round or oval posts – all without drilling!

Simple and secure installation without drilling

Installation is very easy: Connect the extension to your safety gate using the included connectors. Then, attach the adjustment screws to the outer sides of the extension. Finally, secure the gate and extension by pressing them firmly into the door frame or staircase – quick, stable, and secure.
