SHADE ME 2
SET OF 2 ROLL-UP SUN PROTECTION FOR SIDE WINDOWS

Product Images

Reliable sun protection for your child

With these high-quality sun shades, you can effectively protect your child from direct sunlight and prevent the car from overheating. This keeps the vehicle pleasantly cool, allowing your child to travel in comfort.

Flexible design for optimal protection

The durable mesh material is 37 cm wide and can be adjusted in length, making it ideal for the side windows next to your child's car seat. Despite the sun protection, the view outside remains clear, enabling your child to enjoy their surroundings while travelling.

Easy rolling up and down

A simple press of a button and the sunshade rolls up immediately – conveniently attached to the guide rail for quick and easy storage.

Secure attachment for stability

You can attach the shades according to your preference using the hanging clips directly on the window frame or with extra-strong suction cups on the glass. This ensures the sun protection stays securely in place, no matter how lively the journey gets.

Double protection

Each pack contains two sun shades – perfect for securing both side windows next to the child seat and providing your child with the best protection.
