Alpha+ - The wooden highchair that grows along for a lifetime

Lifetime companion made of sustainable wood

The Alpha+ is made of European beech wood, which comes from FSC®-certified forests, which value sustainable and ecologic forestry to protect plants and animals.

Thanks to the adjustable seat and foot plate, the highchair adapts to the height of your child and allows a comfortable seating position at any age. The highchair also fits under almost any table with the bumper bar at 70 cm from the floor and is a reliable companion that takes up to 90 kg.

Maximum stability for safe meals

The stable construction with floor gliders makes the Alpha+ tilt-proof. Additional safety is provided by the 5-point harness and the crotch strap. Both are included in delivery and are compatible with all other hauck accessories. For younger children, the bumper bar is indispensable. Later, you can remove it, allowing your to can sit directly at the table or at their desk.

Comfort from birth with flexible accessories

Combined with the Alpha Bouncer baby modules, which can also be used as a baby bouncer, your baby is on par with the family right from the start. You can complement the Alpha+ with various other accessories such as food tray, play tray, seat reducer cushion, seat pads, and storage boxes.
