Ergonomic, stable, grow-along: the Arketa wooden highchair made of oak

The youngest children can now enjoy sharing meals together with the whole family. Our Arketa children's chair has a front bar at a height of 70 centimetres and fits under almost any dining table. So if your child 6 months or above, they can join in the eating fun too!

The bigger your child gets, the lower the highchair needs to be. With 13 steps for the seat and foot plate, you can adjust the Arketa at any time. From toddlers to adults: a comfy seat for everyone.

Safety for relaxed meals

All your child needs to sit safely is included: crotch belt, 5-point harness and front bar. The Arketa is also designed to be tilt-proof. Even if your child pushes away from the table, the chair slides gently backwards with the floor gliders and remains stable.

Is sustainability important to you? It is to us, too. This is why the Arketa is made of durable, high-quality wood that comes from FSC®-certified forests. This makes sure that forests are used sustainably and protects animals and plants.

Flexible expansion

With accessories, you can make the Arketa even better! With the newborn module, your baby will be on the same level as the family from birth. The one-click food tray offers plenty of space to eat. Soft seat cushions provide cushioning, and with the practical storage box, you have everything within reach.
