Alpha Bouncer Deluxe - the perfect newborn set. This cosy baby bouncer is compatible with the hauck wooden highchairs Alpha+ and Beta+ which can now be used right from birth. New-borns will feel super comfy now that they can be at eye level with the family. The baby rocker's back rest can be adjusted with one hand, and the mobile and bouncer frame are a welcome change.

The ergonomically shaped and softly padded bouncer directly attaches to the hauck grow-along highchair. The infant insert and lateral paddings support your baby's head, while the multi-adjustable backrest ensures that your little one is always in a comfortable position. The bouncer's 3-point harness helps keep your child safe. Furthermore, no matter if you are feeding or playing with your baby, the elevated position on the high chair is very back-friendly on you.

For a change, the bouncer easily attaches to its frame. Your baby can play with the mobile, grab and turn around the pendants, while supporting the development of his or her motor skills. And when it's time to make a little nap, the bouncer's soft and natural movements will rock your little treasure to sleep.

Our recommendation: Buy the Alpha Bouncer Deluxe and hauck Alpha highchair together and be perfectly equipped right from birth. Simply perfect. Both the Alpha+ and Beta+ chairs are usable up to 90 kg and a lifelong companion.
