- Tray set for wooden highchairs Alpha+ and Beta+
- Seat insert with anti-slide protection
- Removable tray
- Depth-adjustable food tray with cup holder and elevated edge

ALPHA TRAY

TABLE FOR WOODEN HIGHCHAIR

This practical food table is compatible with our Alpha+ and Beta+ wooden highchairs. By installing it on your grow-along chair, your little one can eat just like an adult on the table.

NO SLIDING DOWN

Thanks to the base with middle barrier and lateral restrictions your child will not slide down during mealtime and sit safely at all times.

GROW-ALONG TRAY

The table easily slips on the base until it clicks on and can be then adjusted up to 3 times in depth, allowing a perfect position for your growing child. In addition, thanks to the elevated edge nothing will fall down and the drink will remain well-placed in the cup hole. When not needed, the table is as easy to remove.

ALPHA TRAY

REMOVABLE TRAY

When the transparent tray gets dirty, you can simply remove it for cleaning. Whilst doing so, you don't need to remove the whole table - just the transparent tray. Simply practical!

Hauck Alpha Tray - the table set for the hauck Alpha+ highchair

With this practical table set you can complete your Alpha+ or Beta+ highchair and make your child smile brightly. Because as of now, your little one can eat like the grown-ups.

This grow-along table consists of three parts: the seat reducer that prevents your child from sliding down, the table that can be adjusted in 3 positions to suit your growing child, and a tray that can be easily removed for cleaning.

On the Alpha Tray, your little one can discover the art of eating in a relaxed manner. No matter if the food misses its mark, the elevated edge and cup holder prevent anything from spilling onto the floor. In addition, you can individually remove the tray and table.
