2in1 folding highchair - from birth to toddler age

With the Sit N Relax 2in1 you have everything you need for the first few years, from baby chair to toddler highchair. And when you don't need the highchair, you can just fold it up. In the large basket you can keep toys, wet wipes and bibs within reach.

Safety and comfort for your newborn baby

In the cosy newborn seat with 3-point hip belt and adjustable backrest, your little one will be comfy and safely strapped in up to 9 kg. Whether at the dining table, the living room table or in the bathroom - the height-adjustable highchair frame allows you to keep your baby close to you at all times - always at the right height.

Eating and playing fun for your toddler

As soon as your child can sit independently, you can switch to the toddler seat. With an adjustable backrest, footrest and depth-adjustable tray, it grows along with your child. The removable tray is easy to clean and has a raised edge as well as a cup recess, keeping everything in its place and preventing spillages.
