THE VERSATILE PLAY MAT SET FROM BIRTH

1st Tent - The interactive play mat set with sunshade

The multifunctional blanket is rich in contrasts and offers your baby endless playing possibilities to train in motor and sensory skills. The play gym promotes the child's first perception by means of black and white details on the toy bar that your darling can discover while lying down.

Once your baby can see and grasp better, the five accessories included in the kit allow you to switch stimulation from sensory and crackling objects to visual toys and sound bodies. All pendants are attached to the toy bar and can be changed or adjusted in height at any time.

When your child can already turn on the belly, you can put the crescent-shaped pillow under the torso, allowing your darling to practice this position and to discover the beautifully coloured houses on the learning mat as well as to explore the room's environment or move around the head to the hanging toys.

Thanks to the sunshade integrated into the 1st Tent, you can also place the baby blanket outdoors in your garden or in sunny places in the kid's room, keeping the fun undisturbed both in summer and winter.

The toy bar can easily be detached, transforming the tent into a play rug for small kids who love to move around.

The 1st Tent play set grows along with your little darling, offering endless play variations and supporting your baby's early development from birth onward.
