SPEEDSTER

Product Images

The Speedster by hauck was designed as a beginners' pedal car. The low weight, sporty design, trendy colours and large front plate make the Speedster a full-on fun-mobile for boys and girls aged 4 and over. As well as training strength, stamina and reactions, this go-kart is a fun way to teach the rules of the road, and even reverse parking. To keep the speed under control, the easily operated handbrake works on both rear wheels for optimum safety. The bucket seat has a comfortable backrest and can be adjusted to suit the child's leg length.
