Eco Mobil from hauck is a versatile, pull-along wagon. The sturdy plastic base, firm, high-quality material on the side walls and a robust steel frame can easily handle loads of up to 50 kg. Thanks to its generous dimensions, there is room for two children in Eco Mobil. The comfortable seat cushions and a removable sun canopy have been provided for this purpose. The low center of gravity makes the wagon stable and unlikely to tip. For getting in and out, the sides are low and fitted with small handles. A practical parking brake prevents the wagon from rolling away on slopes. The Eco Mobile is easy to fold up, so it can be transported in larger trunks.

Features

- Robust tubular steel frame
- Stable plastic bottom
- Low centre of gravity
- 10" wheels with low-profile tyres, Ø 25.5 cm, ball bearing mounted
