THE PREMIUM ALL-ROUNDER FROM BIRTH

The Vision X Set fills all your wishes. The hauck premium pushchair set can be used right from birth and grows along with your child.

The carrycot features a high-quality mattress and soft side padding that offers your baby optimal lying comfort, to a maximum weight of 9 kg.

The windows, with mosquito net, allow good air circulation whilst the UV protection of the canopy makes sure that your child is also well-protected and can sleep comfortably during summertime.

Modern and easy-care mélange fabrics on the carrycot and seat complement the high-quality interior.

The Vision X is as adventurous as you. At only 10.2 kg, it is the lightest pushchair with reversible seat unit in its class. The seat can be used for children up to approximately 4 years or a body weight of 22 kg and can be attached in both parent and forward facing.

The backrest can be adjusted in a lie-flat position with one hand, offering a comfy sleeping area when you are on the move. The footrest is also adjustable with a simple click. The included boot cover comes in the same design and offers protection in all weathers.

For an easy entry and exit of the seat for older children, the height-adjustable bumper bar can be removed whilst the padded 5-point harness helps keep your child safe without disturbing them while they sleep.

The Vision X is a great companion for your family and can also be combined with an infant car seat or modern seat liner for more flexibility and comfort.
