This modern and elegant stroller comes with a snuggly pram and can be combined with the separate i-Size iPro Baby car seat. The fabrics are super-soft and the all-terrain wheels, as well as the swiveling or lockable front wheels ensure maximum driving fun. In addition, our Saturn R can be used up to 25 kg and - once folded down to its compact size - transported simply anywhere.

The soft push handle with integrated cup holder can be adjusted to your individual height, offering a back-friendly posture on your walks.

In combination with the cosy pram, you can use our Saturn R right from birth. The soft mattress and high-quality padding offer a great feeling of safety and make your new-born baby feels safe and sound.

The light sport seat can be installed both forward-facing and parent-facing, giving you the choice. For little naps, the backrest can be inclined up to a lie-flat position with one hand and the footrest adjusted in an upward position. The large canopy protects against the sun. There is also a practical boot cover included for colder days. The 5-point harness, bumper bar, and parking brake help keep your little one safe at all times.

Our recommendation: For your newborn, we recommend the separately available iPro Baby infant car seat together with its iPro Base, approved to i-Size, with modular side-impact protection and memory foam. This can be also installed on the stroller frame for a practical travel system.
