VENTILATION HOLES  
FOR OPTIMAL AIR CIRCULATION

FREE VIEW  
TO ALL SIDES

## **Matching raincover for the hauck Dryk Duo and Dryk Duo Plus bike trailer**

### **Well-protected on rainy days**

Optimal fit, easy handling and always at hand – this raincover is the optimal all-round protection when you are biking or walking with your children on rainy days. Be it in bike trailer mode or pushchair mode, the rain protection keeps the inner cabin as well as your children dry at all times. Thanks to the touch fastener and optimal fit, the cover stays safely in place.

### **Easy installation, good ventilation, and free view**

By putting the touch fastener in place under the handlebar of your Dryk Duo or Dryk Duo Plus, you can easily install the raincover. When the sun is out again, it can be opened and removed as easily. Thanks to the flexible material, the raincover folds up easily and can be stowed away in the trailers trunk. If it suddenly starts to rain during your trip, you will always have it at hand. When using the raincover, all three windows of the hauck kids trailer should be opened, allowing for the best possible air circulation and preventing the cover from steaming up. The transparent material allows your children a free view outside, while you can still keep an eye on them.

### **Other accessories available**

Other than the raincover, there are other practical accessories available such as the Baby Lounger, the Bike Trailer Sunshade, or the Bike Trailer Hitch.
