### **Rain cover for hauck Dryk Duo and Dryk Duo Plus bike trailers**

#### **Well protected even in rainy weather**

Perfectly fitting, handy and always on hand – the rain cover for the Dryk Duo is the perfect all-round protection when you're out and about with your children on rainy days by bike or on foot. Thanks to the precise fit and hook and loop fastener, it fits securely and keeps your children dry at all times.

#### **Quick to attach and easy to store**

The rain cover is easily attached to your Dryk Duo or Dryk Duo Plus using the hook and loop fastener. When the sun comes out again, quickly remove, fold it up small and stow it in the storage compartment of the bike trailer. There it is quick to grab if you get caught in another shower.

#### **Good ventilation and clear view to the outside**

All three windows of the bike trailer are opened during use. The large ventilation holes allow good air circulation and the windows do not mist up. Thanks to the transparent material, your children have a clear view from the pushchair or trailer and you can always keep an eye on them.
