Highchair Tray Mat - Food-safe silicone place mat for children

Easy-care, dishwasher-safe place mat made of 100% food-safe silicone

The surface of the tray mat can be easily cleaned after mealtimes. Thanks to the high-quality material being temperature-resistant from 20 °C to max. 220 °C, you can also clean the place mat in the dishwasher. The soft, flexible food-safe silicone is LFGB tested and safe for your child's health. The rounded corners of the place allow for extra safety.

Non-slip material, multifunctional use on highchair tray or dining table

Thanks to the non-slip material, the table mat always remains smooth on the table. Cups, plates and mugs also stand stable. The mat can be used either on your child's highchair tray, e.g. on the hauck Alpha Click Tray or on any dining table. Thanks to the bend at the pointed ends, it folds down and closes perfectly at the edge of the dining table.

Space-saving, modern design and lovely colours

Thanks to the soft silicone, you can easily roll up the place mat and stow it away ready to hand for the next lunch. The place mats is available in different modern and neutral colours.
