Practical bed guard for children

Sleep safely – anywhere, all the time

Want to be sure your toddler between 18 months and 5 years sleeps safely and securely, whether in their own bed or with you? The bed guard is made for just that!

The bed guard is versatile and fits beds with a width of 75-140 cm, a length of 160-220 cm and a mattress height of up to 15 cm. The top edge of the mattress should be a maximum of 60 cm from the floor.

Easy to use – good air circulation

Attaching the guard is really simple. Two straps securely fasten the safety rail under the mattress. This keeps it in place at all times.

The large mesh window means your child can always see out. It also ensures good ventilation. This helps them sleep comfortably.

It folds up easily to put away when you don't need it. And it's compact to take along on holiday. Perfect, right?
