

SAFE TO OPEN AND MANUAL LOCKING

/

**INDIVIDUAL USE AND EXPANDABLE WITH
ACCESSORIES**

/

**MOUNTED SAFELY, SECURELY AND QUICKLY
WITHOUT DRILLING**

MORE SAFETY DUE TO BARRIER-FREE ACCESS

This low-threshold safety gate offers you and your child extra comfort and safety on doors and stairs, making everyday life easier.

SECURE AND QUICK TO LOCK

The door and stair safety gate can be opened to both sides with one hand. You can block the gate on one side with the safety stopper, depending on the situation.

SAFE AND EASY TO LOCK

SAFETY GATE OPENS IN
BOTH DIRECTIONS

PRESSURE FIT GATE FOR STANDARD DOORS AND STAIRS

The barrier-free metal safety gate is suitable for stairs or doors with a width of 75 to 80 cm. Thanks to the adjusting screws, you can clamp it in place quickly and stably.

EXPANDABLE WITH SEPARATE EXTENSIONS

With the separately available 9-cm and 21-cm extensions, you can extend the safety gate to 122 cm and use it for numerous staircases and doors that do not have standard dimensions.

SEPARATE Y ADAPTER AVAILABLE AS ACCESSORY

SEPARATE Y-SPINDLES FOR STAIRS WITH ROUND STRINGERS

The safety gate can also be mounted on banisters with round stringers without drilling using the hauck Y-spindles.

CLAMPING GATE WITH PRESSURE FIT

Whether at home, at the grandparents, or on holiday – thanks to the pressure fastening with adjusting screws, the child gate can be easily removed and mounted in just a few simple steps.

SELF-ADJUSTING GATE

The initial skewed position/gap in the area of the locking mechanism is eliminated by tightening the four fixing screws. This makes secure, stable fastening possible.

CLEAR STEP 2

BARRIER-FREE, MANUALLY LOCKING SAFETY GATE

Barrier-free, manually locking safety gate for doors & stairs

As soon as your child is mobile, safety gates on stairs and in doorways are essential. This barrier-free safety gate has a low threshold – thus virtually eliminating the risk of tripping for both young and old.

The safety gate can be opened with one hand to both sides and is easy to close.

Hot stove? Open front door? In some situations, it is safer if the safety gate only opens in one direction. You can set this at any time with the safety stopper.

Whether at home, at the grandparents, or on holiday, the clamping gate is robustly attached with adjusting screws by means of pressure fit and can be removed without leaving any residues.

The Clear Step 2 is not only suitable for passageways with a standard width of 75–80 cm, but can also be extended to up to 122 cm using the separately available extensions of 9 cm and 21 cm. The safety gate can also be mounted on banisters with round stringers using separate hauck Y-spindles.

The following dimensions are possible with separate extensions:

- 84–89 cm = child safety gate + 9 cm extension
- 93–98 cm = child safety gate + 9 cm + 9 cm extensions
- 96–101 cm = child safety gate + 21 cm extension
- 105–110 cm = child safety gate + 9 cm + 21 cm extensions
- 117–122 cm = child safety gate + 21 cm + 21 cm extensions

Note: This safety gate is self-adjusting. This means that the initial skewed position/gap in the area of the locking mechanism is eliminated by tightening the four fixing screws.
