Lifestyle Images

This play table banishes boredom on journeys. Play on Me is suitable for all Group I car seats. It is easy to mount and fastens around your child with the length-adjustable belt. The softly padded play table is shaped to accommodate your child's tummy and, with a surface measuring approx. 40 x 35cm, it is big enough for their favourite toys and games. The raised edge prevents toys from falling off. Both zip-fastening pockets on the left side and net pockets on the right side provide storage space. Play on Me is washable, foldable, and guarantees access to your child in an emergency.
