PUSHCHAIR REPAIR KIT 3W

INNER TUBE REPAIR KIT FOR THREE-WHEEL PUSHCHAIRS

UNIVERSAL REPAIR KIT FOR PUSHCHAIR WHEELS

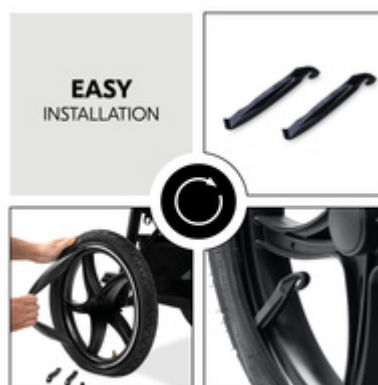

UNIVERSAL REPAIR KIT FOR PUSHCHAIR WHEELS

The kit contains 3 tubes: 2 with 16 inch diameter each for the rear wheels and 1 with 12 inch diameter for the front wheel and can be used for pushchairs with this wheels size.

INCLUSIVE TOOLS FOR AN EASY INSTALLATION

Thanks to the included wheel fork, you can easily install the inner tubes without the need of additional tools.

DURABLE THANKS TO GOOD QUALITY

DURABLE AND LONG-LASTING MATERIALS

The inner tubes made of rubber and the valves are very robust and can be used for a long time.

EASY INFLATION THANKS TO STANDARD VALVES

The valves are compatible with the standard size of portable pumps, so that you can easily inflate them even when out and about. When inflated, they stay securely closed.

USABLE FOR WHEELS FOR THE HAUCK RUNNER SERIES

The tyre repair kit is universally usable, but perfectly suited for the three-wheelers of the hauck Runner.

Tyre repair made easy – The Pushchair Repair Kit 3W

Universal fit for three-wheel pushchairs

A flat tyre on your pushchair? No problem! With the Pushchair Repair Kit 3W, you can quickly and easily replace the inner tubes of your three-wheel pushchair, such as the hauck Runner, Runner 2, or Runner 3. Keep your pushchair ready to go for smooth and stress-free walks.

Everything you need in one kit

This handy repair kit includes two 16-inch inner tubes for the rear wheels, one 12-inch inner tube for the front wheel, as well as a tyre lever. Changing the tubes is effortless and requires no additional tools.

Quick and easy installation

With the included tyre lever, you can remove the old tube in just a few steps and fit the new one just as quickly. No complicated tools, no hassle – your pushchair will be ready to roll in no time.

Compatible with standard bike pumps

The valves are designed for use with standard bicycle pumps, making inflation quick and easy. Thanks to the secure valve design, the air stays in reliably.

Durable and robust

The high-quality rubber tubes and sturdy valves are built to last. They are particularly resistant to everyday wear and tear, ensuring long-term comfort and safety.
