- Mobil dank Rädern

## SIT N RELAX

---

### AT EYE LEVEL

The cuddly, height-adjustable newborn highchair guarantees a back-friendly and comfortable feeding. Your little one will always be close by and participate in all family events. The backrest can be adjusted until reaching the most comfortable position.

### HEIGHT-ADJUSTABLE

Sit'n Relax can be used anywhere - also when playing with siblings. Simply adjust the newborn attachment to a lower height for the cuddle time to begin!

### GROW-ALONG CHAIR

Once your child can sit independently, you can change to the seat unit. Adjustable backrest and footrest, as well as a depth-adjustable tray can be adapted to your growing child's. The large tray has an elevated edge and a practical cup molding which ensure that nothing will fall off.

## SIT N RELAX

---

### EASY TO MOVE

Sit'n Relax can be moved from one room to the other or even onto the terrace thanks to its wheels. And the best: the practical tray will accompany you anywhere whereas your little one may enjoy all meals no matter where.

HIGHCHAIR SET WITH BABY SEAT & TODDLER SEAT

## Product Images

## Lifestyle Images

The ideal highchair for newborns.

The Sit'n Relax is a very practical highchair combined with a baby and a highchair attachment. The attachments are height-adjustable in 7 position.

The snuggly baby attachment can be used from birth. No matter at which table, your little one will always sit at eye level with you and participate in all family events thanks to the 7-position height-adjustment. You can recline the backrest of the baby attachment until reaching the lying position by using only one hand. This way, your child will lie comfortably in its baby attachment. A sweet mobile supports the development of your child's motor skills. It can be swung aside or removed completely.

Once your baby can sit without aid, use the highchair attachment. The wide and ergonomically shaped seat is very comfortable. The backrest can be brought into the lying position by using only one hand and the footrest can be adjusted individually to the size of your child.

The 5-point harness and the additionally applied plastic holder provide a secure hold when your baby is sitting in its little chair and eating with you at the table. You can adjust the food and play tray in depth for ideal legroom. The useful cup recess gives drinks a secure hold and its raised rim ensures that nothing will fall off. Both the food and play tray can be removed easily for cleaning if necessary.

When your child grows older and the food tray is no longer needed, it can be hung to the frame easily.

Toys or other items can be stowed in the large storage basket. If necessary, the Sit'n Relax can be moved around by its two wheels or folded up to save space.

Thanks to its dual function, you can use the Sit'n Relax for long time. The Sit'n Relax – the multifunctional starter set from birth onwards.
