ALPHA COSY SELECT SEAT REDUCER CUSHION WITH STABLE SIDES

PREMIUM SEAT REDUCER WITH REINFORCED SIDES

The Alpha Cosy Select is particularly useful during your toddler's first months in the hauck wooden highchair. The practical seat reducer comes with an extra high back and reinforced sides that protect your child's head, while also offering stability and comfort.

Thanks to the cotton waffle pique structure, the seat cushion is very soft to the touch, providing your baby with a breathable and temperature balancing seat that prevents heat accumulation and offers optimum comfort even on warmer days.

The snuggly seat cushion comes with an anti-slip coating that prevents it from sliding back and forth during your little explorer's mealtime and playtime.

The Alpha Cosy Select is designed for the hauck grow-along chairs and fits them perfectly. It is very easy to install and just as easy to remove for washing. The seat reducer is compatible with the Alpha Tray, as well as with various other Alpha+ accessories, allowing your little one to use them at the same time.
