/

**EASY AND PRACTICAL HANDLING IN EVERYDAY
LIFE**

YOUR CHILD IS PART OF
ALL FAMILY ACTIVITIES

YOUR CHILD CAN BE PART OF ALL
FAMILY ACTIVITIES

Thanks to the elevated position of the learning tower, your child can do various activities at eye level together with the family, strengthening your sense of togetherness.

SUSTAINABLE, TÜV APPROVED AND
FSC® CERTIFIED

The learning tower is safe to use and TÜV approved as well as FSC® certified, which means that the beechwood comes from FSC® certified forests with sustainable forestry.

**STRENGTHENS
YOUR CHILD'S**
INDEPENDENCY

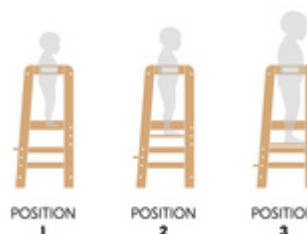

STRENGTHENS YOUR CHILD'S
INDEPENDENCY

Your child takes on tasks from an early age through play, e.g. when cooking or baking, strengthening their independence, linguistic and social development as well as their self-confidence.

GROW-ALONG THANKS TO ADJUSTABLE FOOT PLATE

The learning tower grows along with your child. Depending on your child's size, you can adjust the foot plate into three different heights.

GROW-ALONG THANKS TO HEIGHT-ADJUSTABLE FOOT PLATE

LONG-LASTING COMPANION WITH STABLE CONSTRUCTION

LONG-LASTING COMPANION WITH STABLE CONSTRUCTION

The robust and stable design of the learning tower takes up to 40 kg, allowing your child to use it for a very long time.

UNIVERSAL USE

Your child can use the learning tower not only in the kitchen, but also at the table or the bathroom sink to reach various things easily and independently.

STRENGTHENS YOUR CHILD'S INDEPENDENCY

Learn N Explore - The learning tower for independent discovery

Sustainable, FSC® certified Montessori learning tower

Thanks to the elevated position of the toddler step stool, your child can do various activities at eye level together with the family. According to the Montessori principle "Help me to do it myself", your child takes on tasks from an early age through play, e.g. when cooking or baking, strengthening their independence, linguistic and social development as well as their self-confidence. The hauck toddler tower is FSC® certified, which means that the beechwood comes from FSC-certified forests with sustainable forestry.

Grow-along, stable and universal tower

Depending on your child's size, you can adjust the foot plate of the kitchen helper into three different heights. The robust and sturdy construction allows your child to use the Montessori tower up to 40 kg, be it in the kitchen, at the dining table or at the bathroom sink.

Simple, practical and safe handling

Screws and tools are already included in delivery. The foot plate can be easily adjusted with two screws. The shape and design of the wooden toddler step are adapted to the look of the hauck wooden highchairs to create a harmonious picture in your interior.
