1ST RIDE FOUR

THE STABLE RIDE-ON FOR THE FIRST DRIVING EXPERIENCE

LEARNING FUN FOR CHILDREN
UP TO 55 LBS

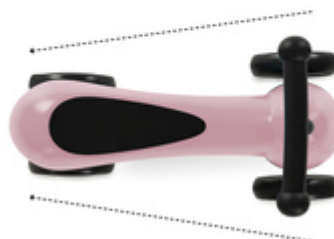

LEARNING FUN FOR CHILDREN UP
TO 55 LBS

Thanks to its stable construction, the 1st Ride Four is suitable up to 55 lb. From 18 months onward, toddlers can train their agility and motor skills through play.

EASIER PUSHING THANKS TO
ERGONOMIC FORM

Thanks to the no pedal car being slimmer at the rear, your child will benefit from a carefree driving experience as their legs will not connect with the rear wheels.

ERGONOMIC FORM

MODERN COLOURS
AVAILABLE

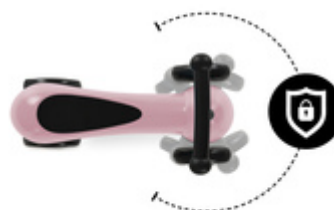

MODERN COLOURS AVAILABLE

Give your home a colourful touch by finding your favourite colour among the pastel blue, green or pink options.

STABLE AND TILT-PROOF THANKS TO MODERN DESIGN

Due to the particularly low centre of gravity of the frame and the steering angle limitation on both sides, the 1st Ride Four offers tilt-proof driving pleasure.

MODERN DESIGN STABLE & TILT-PROOF

ANTI-SLIP HANDLEBAR AND COMFY SEAT

ANTI-SLIP HANDLEBAR AND COMFY SEAT

The stable handle with roughened surface ensures a good grip. Thanks to the padded surface, your child can drive comfortably through your house or garden.

SILENT AND NON-SLIP COMFORT WHEELS

The four comfort wheels roll quietly over your floors and offer optimal noise reduction and stability thanks to the soft scuff-resistant material.

1ST RIDE FOUR

THE STABLE RIDE-ON FOR THE FIRST DRIVING EXPERIENCE

Your child's first car – the hauck 1st Ride Four

The 1st Ride Four is the perfect ride-on toy for all young racing drivers.

From 18 months onward, your little one can discover their surroundings and drive through your home on this lovely 4-wheeler. The ergonomic shape of the ride-on supports the pushing movements and prevents the little legs from touching the rear wheels. Your child can train their agility, motor skills and coordination, while having a lot of driving fun.

Thanks to its stable construction, the 1st Ride Four is suitable up to 55 lbs, guaranteeing long usability. This way, even future siblings will have fun with this ride-on vehicle.

The extra-silent wheels of the push vehicle are made from weather-proof and durable EVA plastic, making them suitable for any terrain indoors or outdoors.

The seating surface is softly padded and offers great comfort while driving. The low centre of gravity of the frame makes the ride on car particularly stable, whilst the non-slip handles and steering angle limitation allows for better safety when steering.

The 1st Ride Four is a long-lasting companion for the first driving experience of your child and scores points with modern design, safety as well as quality.
