

YOUR HIGHCHAIR BECOMES A VEHICLE

/

STEERING, SHIFTING GEARS, PRESSING BUTTONS

/

NOTHING FALLS OFF

**GREAT
ADDITION**
TO YOUR HAUCK
HIGHCHAIR

USABLE WITH THE
PLAY TRAY ON THE
ALPHA+, BETA+ &
ARKETA HIGHCHAIRS

YOUR HIGHCHAIR BECOMES A VEHICLE

Children love to pretend drive! Transform your Alpha+, Beta+ or Arketa wooden highchair into your child's first vehicle with the Play Cockpit!

STEERING, SHIFTING GEARS, PRESSING BUTTONS

Off you go: the interactive cockpit with steering wheel, gear lever and buttons helps develop fine motor skills and dexterity. Every drive is an expedition!

LEARNING THROUGH PLAY:
PROMOTES FINE MOTOR SKILLS & DEXTERITY

NOTHING FALLS OFF

Even on wild rides! Everything is securely fastened, no loose parts. With the key and steering wheel attached to the Play Cockpit with a strap, nothing is lost and you never have to pick up anything.

FROM CAR TO AEROPLANE

Car, boat or plane: with the movable gear lever, steering wheel and buttons on the cockpit, the highchair becomes a playground. Even the weather can be freely selected.

CAR, BOAT OR PLANE:
**IT TURNS THE HIGHCHAIR
INTO A PLAYGROUND**

EASY TO ATTACH

Just one wooden screw: simply screw the Play Cockpit to the Play Tray of your hauck wooden highchair. It is securely fastened and easily detached again.

WITH AND WITHOUT PLAY TRAY

Whether in a highchair or on the floor: Your child can also play with the Play Cockpit without the hauck Play Tray. Your floor simply becomes a road, a river or airspace.

SUSTAINABLE

FSC®-CERTIFIED
WOOD

GOOD FOR NATURE

Like you, we care about nature. The hauck Play Cockpit is made from sustainable, FSC®-certified wood and painted with water-based colours. You can count on it.

CAN BE COMBINED WITH A SECOND
TOY

Variety guaranteed: you can use the Play Tray with two large or three small hauck toys. Simply swap them out and your child can practise different skills.

UP TO THREE
TOYS CAN BE COMBINED

Cockpit for your hauck wooden highchair

Your highchair becomes a vehicle

Children love to pretend drive! Transform your Alpha+, Beta+ or Arketa wooden highchair into your child's first vehicle with the Play Cockpit! The interactive cockpit with steering wheel, gear lever and buttons promotes fine motor skills and dexterity. Every drive is an expedition!

Nothing falls off

Even on wild rides! Everything is securely fastened, no loose parts. With the key and steering wheel attached to the Play Cockpit with a strap, nothing is lost and you never have to pick up anything. Car, boat or plane: with the movable gear lever, steering wheel and buttons on the cockpit, the highchair becomes a playground.

Easy to attach

Just one wooden screw: simply screw the Play Cockpit to the Play Tray of your hauck wooden highchair. It is securely fastened and easily detached again. The Play Cockpit is just as much fun on its own on the floor - which becomes a road, a river or airspace.

Good for nature

Like you, we care about nature. The hauck Play Cockpit is made from sustainable, FSC®-certified wood and painted with water-based colours. You can count on it.

Shipping
